Firmenbeschreibung

Salud Foodgroup produces and distributes frozen Avocado products, Appetizers, Tortillas & Grabbetizers and Tropical fruit throughout Europe and the Middle East. The quality requirements that the products must meet are fully tailored to the market. Salud's customers have a constant need for variety, quality, time-saving preparation methods and practical solutions. Salud responds with innovative developments and a product approach based on good flavour, convenience, freshness and high quality. Fast freezing of high quality, tasty products guarantees that the quality is preserved. A very valuable characteristic in both the hospitality industry and retail. The culinary success of the 'kitchen' has thus become the success of Salud.
