Jacques Battini Cosmetics Sp. z o.o.

Firmenbeschreibung

Since his youth, Jacques Battini, born in 1948 in Corsica, a son of a known perfumer, felt a strong desire to find a true beauty. As he turned 18 he set off on a journey around the world, destined to change his life forever. Despite the wars, plagues and adversities of fate, he had visited many parts of the globe: India, Polynesia, Oceania, Thailand and South America and realised that the real beauty was hidden in every woman. Years later, after he returned to his beloved Corsica, Jacques decided to create a unique and unforgettable fragrance that would capture a woman's natural beauty. This has been the story of a fragrance marked with the name of an extraordinary man, Jacques Battini. Due to the Swarovski crystal placed on the fragrance bottle, Jacques Battini has become both: the scent of a beauty and an exclusive, unique cosmetic for exceptional women.
