Descripción de la compañía

hl.diefirma.en Our competence in the area of wood design is based on long-standing experiences and good business connections. The decisive factors for our success are exquisite quality, high-quality design and an infallible feeling for new trends. hl.dieidee.en Our unique toys, savings boxes and design objects are designed for play, fun, and decoration. hl.dieprodukte.en The combination of wood in high quality, careful processing e.g. 80% fibre craft and outstanding design results in products with a special fascination: Toys for children, decoration objects for adults or fun articles for all, as for example our savings boxes. hl.derrohstoff.en All our products are made of indigenous woods, such as oak, beech and pine. We attach great importance to the fact that our toys manufactured are in line with the European standard EN-71. All our products are made in Czech Republic. Wood is not only the oldest construction material for toys, but also a living, warm natural product. It combines...
