Firmenbeschreibung

We are a professional manufacturer for massagers, beauty and medical treatment instruments. Based on the Traditional Chinese acupuncture and High-tech Bioelectrical technology, we developed a new series of health care and beauty massagers. such as head massager, massage pillow, facial massager, beauty care set, tens massager, foot massager etc. With 6 years of constant research and development, innovation and new product designs, our products remained in ahead of the healthcare equipment market. our products undergo rigid technical test to make sure they meet CE & Rohs standard. We have 300 staffs, and the monthly capacity is 5,000 unit. Our products have been accepted in worldwide especially in European, North America, Oceania and Japan and Asia areas, and at the same time gained good reputations from our customers. Our products are different from others. According to the principles of human body engineering, combined traditional medical massaging with advanced electronic technology, such as infrared physic...
