 Layenberger Nutrition Group GmbH

**Firmenbeschreibung**

As a specialist in functional nutrition, we help people to eat a balanced diet and improve their well-being. To this end, we have been developing and marketing products for weight reduction, weight management and a protein-rich diet for more than twenty years. We are growing continuously, also abroad. Our products are available at more than 12,000 points of sale in Germany and in an increasing number of European countries such as Switzerland, Austria, Finland, Italy and others. Innovation, reliability and respect determine our actions. We translate nutritional trends into innovative, functional foods. Our ambition is to offer our customers consistently high quality and enjoyment. We achieve this through our stable partner network, which uses state-of-the-art technology and preferably produces in Germany or Austria. Fairness and open dialogue with our customers, employees and partners are a matter of course for us as a sign of respect.
