## Firmenbeschreibung

The Caturra Coffee Company, established in 1994, is highly commended as a South African coffee roaster, importer and specialist provider of coffee, tea and other industry specific products. A company that strives to support the retail and catering industry by providing owners and staff with a 'free' complete solution via in-house service training, coffee preparation and the proper management and maintenance of clean, effective equipment. Caturra, encouraged by the highly favourable response in the catering industry, continues to apply a strong service orientation in the trade. We ensure that our chain stores and retail outlets receive proper merchandising quality coffee, competitive pricing and in-store promotions (tasting) that go hand-in-hand with customer's needs.
