## Firmenbeschreibung

Menz & Gasser Company was founded in Lana (BZ) in 1935 as a transforming fruit company and soon it specialises in high quality jam, preserves and fruit semi-finished production. In 1974 the production moved to Novaledo and in 2004, in order to face the ever increasing request of the market, it acquired a new production plant in Verona. Thanks to the experience of a dynamic research & development team and thanks to the use of innovative technologies situated in the two production plants, the company can develop some products which are able to satisfy the request of the most demanding customers belonging to all sales channels: high organised distribution, catering, confectionery, ice cream production, industry, private label. Novaledo is the production headquarter for packed products; this plant has been recently rebuilt and it is thought to allow the ideal flow of the materials for food safety, but also to host a complete automation system able to manage and control all production stages: from the raw m...
